

# **Borefts Bier Festival 2011**

**September 23rd and 24th**

**Official Festival Program**

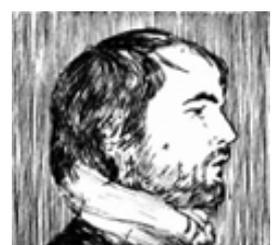

# Welcome

Welcome at our 3rd Borefts Beer Festival! A new year and a new setting for the festival as well. This time we are having the festival at 2 locations. The first location is our beautiful historic Windmill like last year. Both inside and outside you can find the first of a list of wonderful brewers. We are so proud to present these brewers and their beers to you. The rest can be found on our second location. So there's no escaping in visiting both sites. The second location is our complete new brewhouse just down the road. The official opening still has to come but you can already enjoy the sight. And the beers!

In total 12 breweries are attending this year representing 7 countries. We have over 80 beers that go from easy going to powerful and complex. From very sweet to very sour. From refreshing light bitter to harsh spicy.

We will keep this introduction short because we know you won't read it anyway. Too much beers to try out there!

Brouwerij de Molen and friends.

**THE KERNEL**  
BREWERY LONDON

## **Beer & Food**

During the day: Fresh sandwiches with farmers cheese, ham or pate and a cheese and beer sausages platter with mustard on both locations. At the Mill you can also get pizza slices.

Starting at 4 PM: BBQ with satay, fresh sausage and hamburgers.

## **Water**

At the entrance you received a bottle of water with your glass and tokens. During the festival we advise you to drink (also) plenty of water. This does not only prevent you from dehydration but it also cleans your taste-buds.

## **Beershop**

A huge success every year. Therefore we have to put a maximum of 5 on the number of people in the shop at the same time.

Cash payments, Debitcard PIN, Mastercard and VISA possible. It's not possible to PIN cash in the shop.

In the shop are beers available from the attending brewers but also many others and of course Brouwerij de Molen.

## **Train information**

Leaving in the direction of Utrecht and Leiden:

Every 15 minutes past the hour and every 15 minutes to the hour. For example: 16:15, 16:45, 17:15 and 17:45 until 00:45.

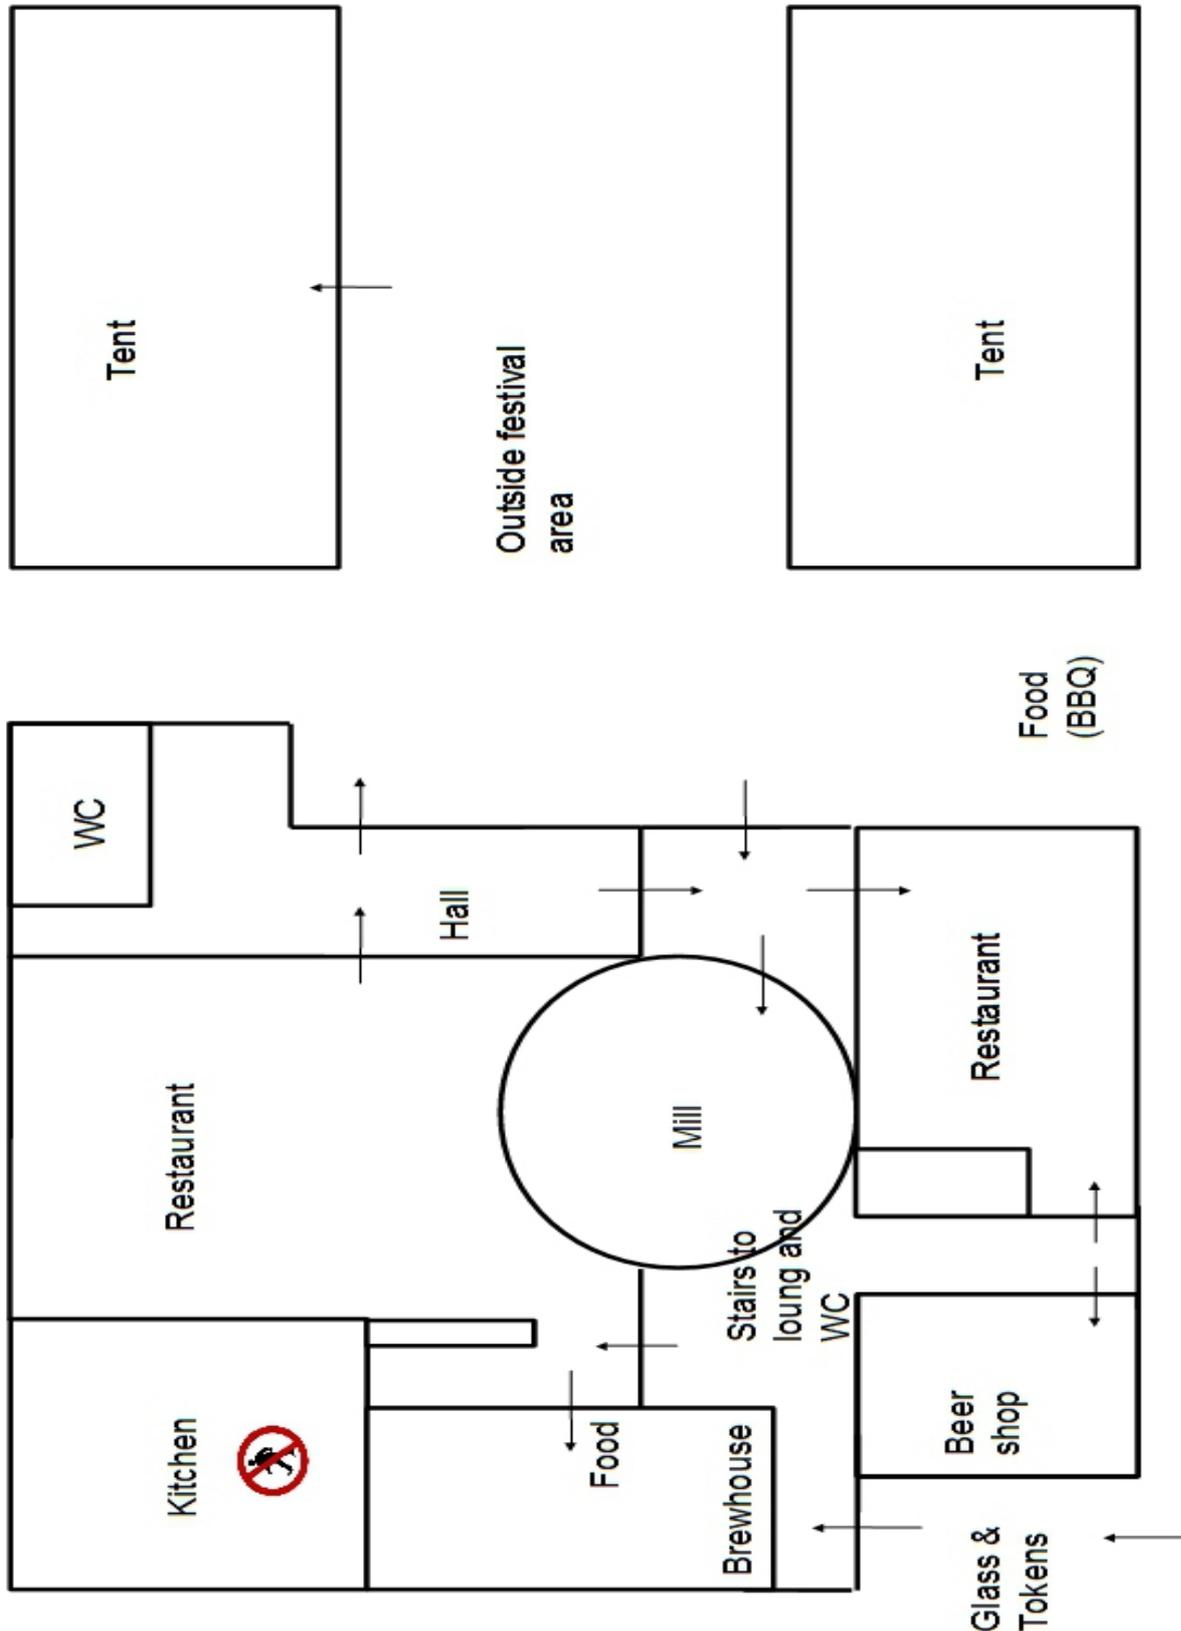

## **What's the secret ingredient?**

Brouwerij de Molen has a beer with a secret ingredient on tap. The beer is called Eer & Geweten (Honor & Conscience). Try to guess what ingredient. Fill out the suggestions form and let us know what ingredient you think it is. From all the right answers we'll pick a winner that receives a De Molen beer-box.

# Floor Plan of the Mill (Overtocht 43)

This is downstairs. There is an upstairs as well with some extra space to sit and also a WC.

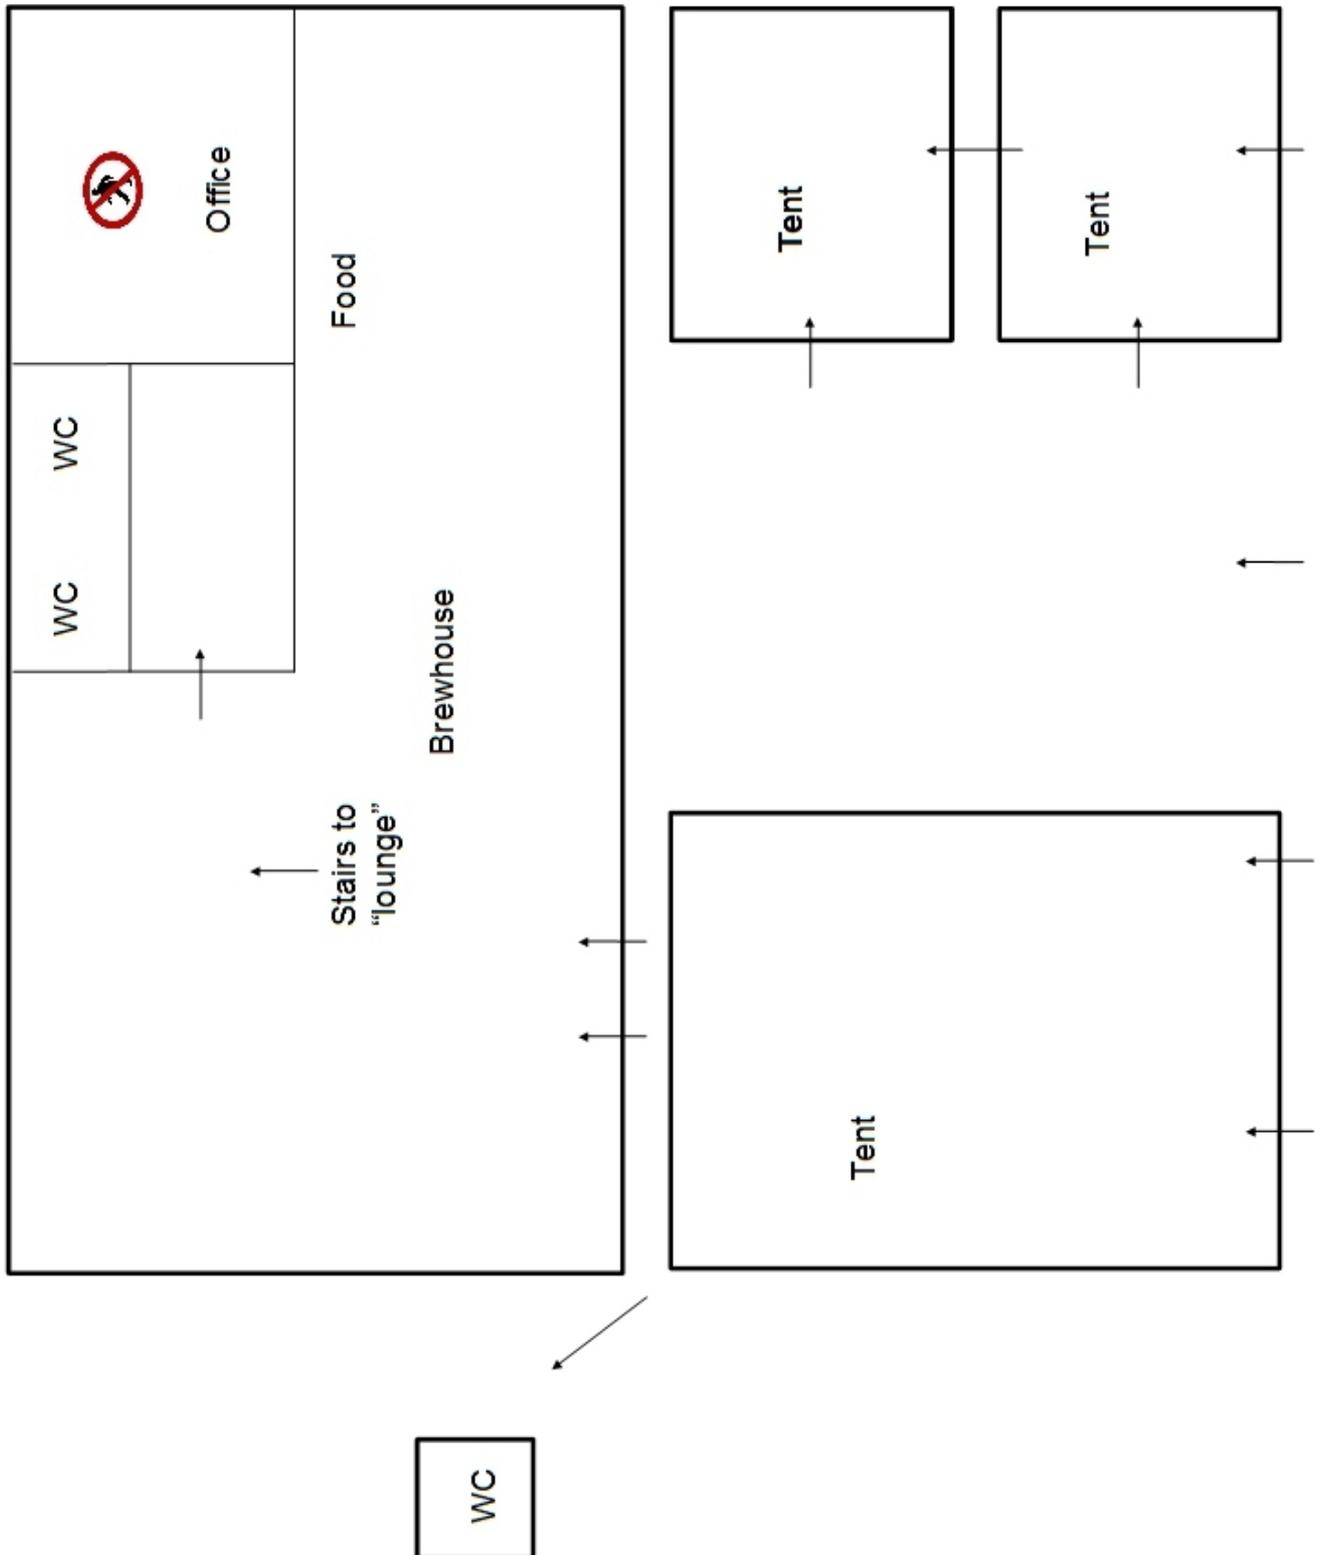

Note: there are only 5 customers at the same time allowed in the shop because otherwise we're afraid bottles might break or something else will go wrong.

# Floor Plan of the Brewery (Doortocht 4)

This is downstairs. There's an upstairs as well.

Note: cold food and tokens are here available as well. For glasses you'll have to visit the entrance at the Mill.

# Beers by brewery

Brewers sorted alphabetically after de Molen. Beers sorted alphabetically as well.

## Brouwerij de Molen, Bodegraven, Netherlands

### Amarillo Upgreyde

9.2%
